In part, we believe, these efforts have failed because they attempt to dictate. Americans generally agree that the First Amendment to the Constitution protects the freedom of speech, there are disagreements over when, where, how and if speech should be ever limited or restricted. In this sense, the return of world literature in the twenty-first century provides a set of productive frames of intelligibility that illuminate the transcultural and transhistorical seams of the imaginary and material processes from which modern Latin American literature emerged.
